BUREAU OF INDIAN STANDARDS

Lighting alone accounts for nearly 20% of the total electricity consumption in India. Effective design of lighting system can result in substantial saving of energy in the country. Intelligent lighting and LED applications in lighting systems can ensure right lighting at right time and at right location with optimum level of energy consumption, which can contribute to 'Smart India Mission' and development of 'Smart Cities' in India.

With the advent of LEDs, direct use of DC power through renewable energy resources like solar power has also gained philip and there is global attempt of clean energy generation using renewable energy resources and off-grid distribution including use of LEDs in remote rural homes for which an Indian Standard on Solar Lantern has already been published by BIS.

It is true that the country that uses less energy to achieve the same or better results not only cuts its costs but also reduce pollution and promotion of use of LEDs through such exhibitions certainly contribute significantly in meeting the national prime objective of better environment and energy conservation. Integrating LED lamps with solar photovoltaic systems, can help India in achieving the target of sustainable development and also reduce burden on our fossil fuels.

Bureau of Indian Standards has so far published 117 Indian standards on lighting including National Lighting Code and 12 Indian Standards on LEDs and is in the process to publish more. Bureau of Indian Standards is also in process of introducing multiple grading in Indian Standards based on the parameters like energy efficiency to further strengthen the quality of lighting products with availability of improved consumer choice.

Adopting Indian Standards for Lighting Systems and Components will ensure safety and long term performance simultaneously ensuring high degree of energy efficiency.

I am glad to note that ELCOMA along with Messe Frankfurt is organizing Light India Exhibition (Featuring Green Lighting Technology) during 18th to 21st September 2014 at Pragati Maidan with emphasis on green and energy efficient lighting technology. Light India Exhibition will benefit designers, architects, building contractors, developers, lighting engineers, project planners and consumers to discover and source the latest in the world of lighting, luminaires and its accessories.

I wish the exhibition all success.

Sunil Soni

**ELECTRIC LAMP AND COMPONENT
MANUFACTURERS' ASSOCIATION OF INDIA**

It gives me great pleasure to release this special issue of the Light India 2014 Exhibitor's Directory. This Directory is exhaustive, and contains the profile of all the exhibitors at Light India 2014.

Light India is the biggest and best exhibition for Lighting in India, organized by Electric Lamp & Component Manufacturer's Association of India (ELCOMA – the Lighting Association of India), in association with Messe Frankfurt of Germany. This exhibition has brought together exhibitors from around the world, who are displaying Lighting Products and Solutions which are the latest in terms of technology, and the most energy efficient in performance. It is our endeavor to make this exhibition even more meaningful and informative than the last one in 2012.

Beside the exhibition itself there are several special conferences being held simultaneously to provide information on new technology development, designing & applications in LED Lighting.

We are very thankful to all the exhibitors participating in Light India. We hope you have a very fruitful interaction with key stakeholders in the Lighting world. We wish the organizers and participants all the success.

Nirupam Sahay
President, ELCOMA

**ELECTRIC LAMP AND COMPONENT
MANUFACTURERS' ASSOCIATION OF INDIA**

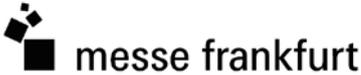

I am pleased to note that during second edition of Light India exhibition, this notebook is published which will be very useful for user in networking and future contact.

The Light India exhibition which is nearly twice in size than last time will depict emergence of new era in Lighting technology and applications.

Best wishes to exhibitors and visitors.

Sunil Sikka
Vice President, Elcoma

MESSE FRANKFURT ASIA HOLDING LTD.

It gives me immense pleasure to welcome you to the 2nd edition of Light India.

Characterised by a high degree of internationality and professionalism, the launch edition of light India proved to be an important interface between customers, manufacturers and market experts of the lighting sector. We are confident that with its focus on green lighting technologies, Light India 2014 will once again provide a dazzling display of reliable, clean and cost-effective lighting solutions and foster trade and partnerships on an international level.

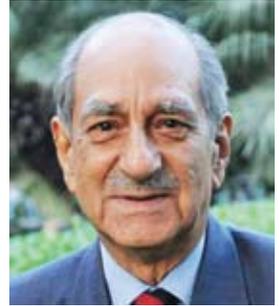

In addition to the extensive spectrum of technologies and products being shown by the 250 exhibitors, the event's multi-faceted structure allows exchange of ideas and insights on subjects of topical interest to the sector, through workshops and sessions lined-up by thought leaders from The Energy Research Institution (TERI), Institute of Interior Designs, Delhi (IIID), Global Lighting Association (GLA), International Solid State Lighting Alliance (ISA) and Bracecorp Publications. We are grateful for the strong support and the valuable knowledge they bring to the show and to the industry as a whole.

I would also like to take this opportunity to thank all our exhibitors, sponsors and supporting associations, especially the Electric Lamp & Component Manufacturers' Association of India (ELCOMA) for their support and commitment in making Light India 2014 such a success, and I am positive that your participation goals will be met during the four days of the exhibition.

Raj Manek
Executive Director and Board Member of Messe Frankfurt Asia Holding Ltd.

**ELECTRIC LAMP AND COMPONENT
MANUFACTURERS' ASSOCIATION OF INDIA**

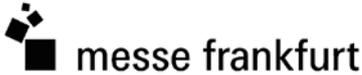

I am privileged to be associated with Light India because it will focus on the contributions that have been made by the lighting industries in India. The Exhibition catalogue has provided the best platform for individual information on leading companies and their areas of strength.

Lighting is moving rapidly into a new era where electronics will play an important role in not only saving energy but also in improving quality and eliminating pollutants. LED with their long life and versatility is extremely consumer friendly and fully meets the industry's objectives of giving its customers the best value for money.

I am sure that readers of Lighting catalogue will find all the information useful and very helpful in understanding the range of product and services provided by lighting companies and also where to find them in exhibition.

H.S. Mamak
Advisor (ELCOMA)

MESSE FRANKFURT

On behalf of Messe Frankfurt, it is my pleasure to welcome you to Light India 2014 and I am proud as Messe Frankfurt takes another successful step towards the international development of the lighting sector.

As light India enters its second edition, our association with our partner and co-organiser, ELCOMA – Electric Lamp & Component Manufacturers Association of India, has become stronger and I would like to express my gratitude for their substantial support in making this event a truly global platform.

The primary objective of Light India has always been to promote green lighting technologies, programmes and initiatives for the advancement of the sector. We are, therefore, also glad to partner with The Energy Research Institution (TERI), Institute of Interior Designs, Delhi (IIID), Global Lighting Association (GLA), International Solid State Lighting Alliance (ISA) and Bracecorp Publications and appreciate the knowledge and expertise they bring through the Light India knowledge seminars.

With the industry moving towards ‘smart lighting solutions’, a platform like this with 200 exhibitors showcasing the complete range of lighting products on over 16,000 sqm of exhibition space will bring the required technology, innovation and top-of-the line solutions together to synergise efforts and develop valuable contacts.

My best wishes for the success of the participating companies and attendees at the fair.

Iris Jeglitza-Moshage
Senior Vice President
Messe Frankfurt

ELCOMA

**ELECTRIC LAMP AND COMPONENT
MANUFACTURERS' ASSOCIATION OF INDIA**

I am pleased to announce that after successful Light India 2012 we are now presenting second exhibition of Light India 2014 exhibition.

This exhibition will be different because this time there are large number of participants from India and abroad. There is full thrust on LED technology and applications.

The four workshops during the exhibition period will impart knowledge on technological development and versatility in application of LED lighting.

We are confident that the visitor will enjoy experiencing the new world of energy efficient lighting.

Shyam Sujan
Secretary General
(ELCOMA)

Seminar Program

- 1. 18th September 2014**
Event: Inaugural Session
Time: 11.00 am
Fees: Complimentary
Venue: Foyer Hall No 7, Pragati Maidan
- 2. 18th September 2014**
Event: Environment and Off-Grid Lighting – a workshop by The Energy Research Institute (TERI)
Time: 13.30 – 18.30 Followed with dinner
Fees: Complimentary By invitation
Venue: Auditorium above Hall 8
- 3. 18th September 2014**
Event: Light India Exhibitors Nite
Time: 19.00 – 22.00
Fees: INR 6000 US\$ 120
- 4. 19th & 20th September 2014**
Event: IIID Conference on LIGHT + DESIGN- US\$ 100 – for both days inclusive of lunch and guided visit to exhibition
Time: 10.00 – 18.00
Fees: INR 3500 US\$ 120
Venue: Lounge – Hall 7
- 5. 19th September 2014**
Event: LED Technology Development and Application – Conference by ISA (International Solid State Lighting Alliance)
Time: 10.00 – 18.00
Fees: Complimentary By invitation
Venue: Auditorium Above Hall 8
- 6. 20th September 2014**
Event: “Business of Lighting” Conference by Sourcing Electricals and Lighting
Time: 13.30 – 19.00 Followed with dinner
Fees: INR. 3500 US\$ 120
Venue: Auditorium Above Hall 8

Expand your distribution network, for enhanced sales & profitability

We help your business grow faster and become more profitable.

Sourcing ELECTRICALS & LIGHTING

For a Complete Electricals & Lighting Business

The key to growth in the lighting and electrical business is careful expansion of the distribution network. And, a quick way of expanding your network is by joining hands with us at Sourcing Electricals & Lighting magazine, the most trusted trade magazine of the industry.

We cover all key markets and reach out to all the people who matter in the trade.

We don't just sell advertisement space to you, we partner with you and help you grow.

The most trusted trade magazine of the industry

With over 45,000 serious readers, the magazine reaches out to all big dealers and distributors apart from institutional buyers, influencers and major players of the industry. When you partner with Sourcing Electricals & Lighting, you reach out to all the people who matter in your business. And, you reach all key geographical markets. All this with zero wastage.

Compared to a non-trade publication, which may have larger readership, Sourcing Electricals & Lighting offers you a higher return on investment, and actually helps you optimise your marketing budget.

True partnership, beyond just advertising

At Sourcing Electricals & Lighting, we help you to convert your business into a brand. We explain how to make your advertising messages more effective. And, we go beyond advertising. We showcase your brand to the right audience at specialised trade events.

Call us today at 95604 14222 and take the first step towards making your business bigger and better.

4th
ANNIVERSARY

electronics
magazine
ELETimes

So congratulations to the patrons on getting a successful shot in the otherwise immature technology media. All through these years we invested more in people's faith and so in ELE Times.

Commemorating ELE Times journey after four years, remind us of early thoughts of 'Creation is greater than accumulation' thus letting our drive and passion guide our decisions instead of monetary gains. Un-compromised quality: especially with people, friends, employees and our clients encouraged us for a good product. We understand that good products will thrive, survive and solve customer needs. Now our publications and services outlast the noise as customers can't live without them and often refer them to friends.

Thinking always from the customer perspective makes sense. The only asset now we have is our own oblivion or oneness with the industry. That would keep us blissfully ignorant of the impediments that would entangle us even more for your services.

Feel the Power of Print with ELE Times
India's #1 magazine on electronics
